*families with more than 8 persons -	(100% add \$4,060)	(125% add \$5,075)	(150% add \$6,090)

HHS Website for obtaining program fiscal year poverty guidelines is located at <http://aspe.hhs.gov/poverty/index.shtml>

**Note:** The poverty guideline figures listed on HHS website normally are calculated at 100%. Provided is the HHS chart that has been calculated to meet the 100%, 125% and 150%.

When computing the percentage of poverty guidelines that are required for your program client eligibility, remember HHS charts are always at 100% of poverty. Agencies need to multiply the % of the threshold by your set program eligibility of poverty guidelines.
